

Avonmore Associates

SPECIALISTS IN TURF MANAGEMENT

Long standing relationships build stronger ties!!

Avonmore Associates first started working at the East Gloucestershire Sports Club better known as the East Glos Club back in 1995.

From that date to the present **Avonmore Associates** have undertaken many tasks from grass court construction, re-levelling to irrigation installation and this relationship keeps going from strength to strength every year.

Due to a certain event being held in London during 2012 the East Glos Club is to host a National Veterans competition during the later stages of 2012. Following on from being awarded the National competition **Avonmore Associates** were commissioned to undertake the re-levelling and re-grading of courts 23-27

Works commenced at the latter stages of October

- 1) The existing irrigation system was removed and stored along with all nets and posts.
- 2) The existing turf was stripped by means of a blec combinator machine to a depth of 50mm

- 3) The entire area was re-graded using a cut and fill operation removing an overall elevation difference of nearly 0.5m across courts 23-27
- 4) Despite works being undertaken in early November **Avonmore Associates** were still able to produce a level and suitable rootzone/sub-base.
- 5) Before turfing commenced the Hunter irrigation system was re-installed and tested.
- 6) Some 3,500m² of a ryegrass based turf was laid in a period of 2 days. The turf was supplied from County Turf of Scunthorpe in rolls some 0.74m wide and up to 20m long.

- 7) **Avonmore Associates** will be maintaining the courts through the winter months and the first 3 cuts of the new season in spring 2012
- 8) Just before handing the courts over to Head groundsman Stewart Dominey and the club, new posts and nets will be installed and ready for use.
- 9) We wish the club every success in hosting the National event and hope this will be the first of many.

Equipment used to execute the contract consisted of

- 3no John Deere compact tractors 1no 4310 and 2no 4720
- Blec Global Combinator
- Blec Global laser grader
- Harley stone rake.
- Blec Global blecavator
- 7 ton 360 excavator
